

WE'RE HIRING DATA ANALYST

Responsible for gathering, cleaning, and analyzing data to provide actionable insights that support data-driven decision-making processes. The role involves creating visualizations, dashboards, and reports to communicate findings effectively.

• **Qualifications:** A minimum of a bachelor's degree in Statistics or a relevant field is required. Candidates should possess strong analytical thinking, problem-solving skills, and knowledge of data management and statistical tools.

Responsibilities

• **Data Gathering and Cleaning:** Collect data from various sources (databases, APIs, surveys) and preprocess it to ensure accuracy and integrity.

• **Data Analysis:** Use statistical methods to interpret data trends and conduct exploratory data analysis (EDA) to uncover insights.

• **Visualization and Reporting:** Create visualizations using tools like Tableau, Power BI, or Excel, and design dashboards to track KPIs. Prepare detailed reports and present findings in non-technical terms.

• **Collaboration:** Work with teams to understand data needs and provide solutions.

• **Database Management:** Optimize database performance and manage large datasets using SQL or other tools.

**DEADLINE:
15 JAN 2025**
